DRUG AND ALCOHOL DEPENDENCE

SUBJECT INDEX

Volume 27 (1991)

Abuse liability, tramadol, morphine, human subjects, 7
Abuse potential, flupirtine, lorazepam, human subjects, 101
Acute and chronic drug effects, ethanol consumption, Δ^9-tetrahydrocannabinol, cocaine, rats, 263
Alcohol, anxiety, treatment, 233
Alcohol, cigarette smoking, 283
Alcohol, liver injury, free radicals, membrane damage, hepatoprotectives, 117
Alcohol, placebo, conditioning, heart rate, 191
Alcoholic, neuropahty, 219
Alcoholics, anxiety, depression, transcranial electric treatment, β-endorphine, amine oxidase, GABA, 1
Alcoholism, behaviour, predictors, rats, 135
Alcoholism, family-history, alexithymia, biochemical markers, 73
Alcoholism, females, genetic, marriage, occupation, 95
Alcoholism, primary depression, secondary depression, family history, 275
Alcoholism, treatment, prediction, self-efficacy, controlled drinking, 87
Alcohol abuse, psychopharmacology, drug abuse, dual diagnosis, mental disorders, 35
Alcohol abuse, university students, drinking, cross-national, 167
Alcohol consumption, alcohol diary, quantity-frequency, reliability, stability, 223
Alcohol consumption, protocol analysis, recall strategies, estimation strategies, survey research, 245
Alcohol dependence, women, family history, personality, crime, 185
Alcohol diary, alcohol consumption, quantity-frequency, reliability, stability, 223
Alcohol related problems, drug initiation, poly drug use, 19
Alexithymia, alcoholism, family-history, biochemical markers, 73
Amine oxidase, alcoholics, anxiety, depression, transcranial electric treatment, β-endorphine, GABA, 1
Anticholinergic syndrome, cocaine, scopolamine, poisoning, physostigmine, 115
Antisocial personality disorder, major depression, opioid dependence, psychiatric diagnoses, substance use disorders, 127
Antitussive, zipeprol, dependence, withdrawal, 121
Anxiety, alcohol, treatment, 233
Anxiety, alcoholics, depression, transcranial electric treatment, β-endorphine, amine oxidase, GABA, 1
Behaviour, alcoholism, predictors, rats, 135
Biochemical markers, alcoholism, family-history, alexithymia, 73
Brain, haparegen, D-penicillamine, ethanol-induced injury, liver, ethanol intoxication, penicillamine, 69
Buprenophrine, cocaine, morphine, methadone, convulsions, lethality, CXBK mice, 177

Cessation, illicit drug use, initiation, continuation, 213
Children, drugs, rehabilitation, mothers, 159
Chlormethiazole, ethanol withdrawal syndrome, therapeutic status, mode of action, hepatic and neuroendocrine effects, 201
Cigarette smoking, alcohol, 283
Cocaine, buprenophrine, morphine, methadone, convulsions, lethality, CXBK mice, 177
Cocaine, ethanol consumption, Δ^9-tetrahydrocannabinol, acute and chronic drug effects, rats, 263
Cocaine, heroin, depression, HIV, 29
Cocaine, repeated cocaine administration, norepinephrine, dopamine, dihydroxyphenylacetic acid, homovanillic acid, serotonin, 51
Cocaine, scopolamine, poisoning, anticholinergic syndrome, physostigmine, 115
Conditioning, alcohol, placebo, heart rate, 191
Continuation, illicit drug use, initiation, cessation, 213
Controlled drinking, alcoholism, treatment, prediction, self-efficacy, 87
Convulsions, cocaine, buprenophrine, morphine, methadone, lethality, CXBK mice, 177
Crime, women, alcohol dependence, family history, personality, 185
Cross-national, university students, drinking, alcohol abuse, 167
CXBK mice, cocaine, buprenophrine, morphine, methadone, convulsions, lethality, 177

D-penicillamine, haparegen, ethanol-induced injury, liver, brain, ethanol intoxication, penicillamine, 69
Dependence, zipeprol, antitussive, withdrawal, 121
Depression, alcoholics, anxiety, transcranial electric treatment, β-endorphine, amine oxidase, GABA, 1
Depression, heroin, cocaine, HIV, 29
Detoxification program, intravenous drug abuse, HIV-related syndc romes, methadone maintenance, 79
Dihydroxyphenylacetic acid, repeated cocaine administra-

tion, cocaine, norepinephrine, dopamine, homovanillic acid, serotonin, 51
Dopamine, repeated cocaine administration, cocaine, norepinephrine, dihydroxyphenylacetic acid, homovanillic acid, serotonin, 51
Drinking, university students, cross-national, alcohol abuse, 167
Drop-out, rehabilitation, drug misuse, females, psychological change, 149
Drugs, rehabilitation, mothers, children, 159
Drug abuse, epidemiology, treatment centres, France, 43
Drug abuse, psychopharmacology, alcohol abuse, dual diagnosis, mental disorders, 35
Drug dependence, personality disorder, 209
Drug initiation, poly drug use, alcohol related problems, 19
Drug misuse, rehabilitation, drop-out, females, psychological change, 149
Dual diagnosis, psychopharmacology, drug abuse, alcohol abuse, mental disorders, 35

β-Endorphine, alcoholics, anxiety, depression, transcranial electric treatment, amine oxidase, GABA, 1
Epidemiology, drug abuse, treatment centres, France, 43
Estimation strategies, protocol analysis, recall strategies, alcohol consumption, survey research, 245
Ethanol, hypothalamus, opioid peptides, rat, 63
Ethanol-induced injury, haparegen, D-penicillamine, liver, brain, ethanol intoxication, penicillamine, 69
Ethanol consumption, Δ^9-tetrahydrocannabinol, cocaine, acute and chronic drug effects, rats, 263
Ethanol intoxication, haparegen, D-penicillamine, ethanol-induced injury, liver, brain, penicillamine, 69
Ethanol withdrawal syndrome, chlormethiazole, therapeutic status, mode of action, hepatic and neuroendocrine effects, 201

Family-history, alcoholism, alexithymia, biochemical markers, 73
Family history, alcoholism, primary depression, secondary depression, 275
Family history, women, alcohol dependence, personality, crime, 185
Females, alcoholism, genetic, marriage, occupation, 95
Females, rehabilitation, drug misuse, drop-out, psychological change, 149
Flupirtine, lorazepam, abuse potential, human subjects, 101
France, drug abuse, epidemiology, treatment centres, 43
Free radicals, alcohol, liver injury, membrane damage, hepatoprotectives, 117

GABA, alcoholics, anxiety, depression, transcranial electric treatment, β-endorphine, amine oxidase, 1
Genetic, alcoholism, females, marriage, occupation, 95

Haparegen, D-penicillamine, ethanol-induced injury, liver, brain, ethanol intoxication, penicillamine, 69
Heart rate, alcohol, placebo, conditioning, 191
Hepatic and neuroendocrine effects, chlormethiazole, ethanol withdrawal syndrome, therapeutic status, mode of action, 201
Hepatoprotectives, alcohol, liver injury, free radicals, membrane damage, 117
Heroin, cocaine, depression, HIV, 29
Heroin, opioids, physical dependence, substance abuse, opioid withdrawal, naloxone, 253
HIV, heroin, cocaine, depression, 29
HIV-related syndromes, intravenous drug abuse, methadone maintenance, detoxification program, 79
Homovanillic acid, repeated cocaine administration, cocaine, norepinephrine, dopamine, dihydroxyphenylacetic acid, serotonin, 51
Humans, physical dependence, methadone, naloxine, time course, 139
Human subjects, flupirtine, lorazepam, abuse potential, 101
Human subjects, tramadol, morphine, abuse liability, 7
Hypothalamus, ethanol, opioid peptides, rat, 63

Illicit drug use, initiation, continuation, cessation, 213
Initiation, illicit drug use, continuation, cessation, 213
Intravenous drug abuse, HIV-related syndromes, methadone maintenance, detoxification program, 79

Lethality, cocaine, buprenophrine, morphine, methadone, convulsions, CXBK mice, 177
Liver, haparegen, D-penicillamine, ethanol-induced injury, brain, ethanol intoxication, penicillamine, 69
Liver injury, alcohol, free radicals, membrane damage, hepatoprotectives, 117
Lorazepam, flupirtine, abuse potential, human subjects, 101

Major depression, antisocial personality disorder, opioid dependence, psychiatric diagnoses, substance use disorders, 127
Marriage, alcoholism, females, genetic, occupation, 95
Membrane damage, alcohol, liver injury, free radicals, hepatoprotectives, 117
Mental disorders, psychopharmacology, drug abuse, alcohol abuse, dual diagnosis, 35
Methadone, cocaine, buprenophrine, morphine, convulsions, lethality, CXBK mice, 177
Methadone, physical dependence, naloxine, time course, humans, 139
Methadone maintenance, intravenous drug abuse, HIV-related syndromes, detoxification program, 79
Mode of action, chlormethiazole, ethanol withdrawal syndrome, therapeutic status, hepatic and neuroendocrine effects, 201
Morphine, cocaine, buprenophrine, methadone, convulsions, lethality, CXBK mice, 177
Morphine, tramadol, abuse liability, human subjects, 7
Mothers, drugs, rehabilitation, children, 159

Naloxine, physical dependence, methadone, time course, humans, 139

Naloxone, opioids, heroin, physical dependence, substance abuse, opioid withdrawal, 253
Neuropahty, alcoholic, 219
Norepinephrine, repeated cocaine administration, cocaine, dopamine, dihydroxyphenylacetic acid, homovanillic acid, serotonin, 51

Occupation, alcoholism, females, genetic, marriage, 95
Opioids, heroin, physical dependence, substance abuse, opioid withdrawal, naloxone, 253
Opioid dependence, antisocial personality disorder, major depression, psychiatric diagnoses, substance use disorders, 127
Opioid peptides, ethanol, hypothalamus, rat, 63
Opioid withdrawal, opioids, heroin, physical dependence, substance abuse, naloxone, 253

Penicillamine, haparegen, D-penicillamine, ethanol-induced injury, liver, brain, ethanol intoxication, 69
Personality, women, alcohol dependence, family history, crime, 185
Personality disorder, drug dependence, 209
Physical dependence, methadone, naloxine, time course, humans, 139
Physical dependence, opioids, heroin, substance abuse, opioid withdrawal, naloxone, 253
Physostigmine, cocaine, scopolamine, poisoning, anticholinergic syndrome, 115
Placebo, alcohol, conditioning, heart rate, 191
Poisoning, cocaine, scopolamine, anticholinergic syndrome, physostigmine, 115
Poly drug use, drug initiation, alcohol related problems, 19
Prediction, alcoholism, treatment, self-efficacy, controlled drinking, 87
Predictors, alcoholism, behaviour, rats, 135
Primary depression, alcoholism, secondary depression, family history, 275
Protocol analysis, recall strategies, estimation strategies, alcohol consumption, survey research, 245
Psychiatric diagnoses, antisocial personality disorder, major depression, opioid dependence, substance use disorders, 127
Psychological change, rehabilitation, drug misuse, drop-out, females, 149
Psychopharmacology, drug abuse, alcohol abuse, dual diagnosis, mental disorders, 35

Quantity-frequency, alcohol consumption, alcohol diary, reliability, stability, 223

Rat, ethanol, hypothalamus, opioid peptides, 63
Rats, alcoholism, behaviour, predictors, 135
Rats, ethanol consumption, Δ^9-tetrahydrocannabinol, cocaine, acute and chronic drug effects, 263
Recall strategies, protocol analysis, estimation strategies, alcohol consumption, survey research, 245
Rehabilitation, drugs, mothers, children, 159
Rehabilitation, drug misuse, drop-out, females, psychological change, 149
Reliability, alcohol consumption, alcohol diary, quantity-frequency, stability, 223
Repeated cocaine administration, cocaine, norepinephrine, dopamine, dihydroxyphenylacetic acid, homovanillic acid, serotonin, 51

Scopolamine, cocaine, poisoning, anticholinergic syndrome, physostigmine, 115
Secondary depression, alcoholism, primary depression, family history, 275
Self-efficacy, alcoholism, treatment, prediction, controlled drinking, 87
Serotonin, repeated cocaine administration, cocaine, norepinephrine, dopamine, dihydroxyphenylacetic acid, homovanillic acid, 51
Stability, alcohol consumption, alcohol diary, quantity-frequency, reliability, 223
Substance abuse, opioids, heroin, physical dependence, opioid withdrawal, naloxone, 253
Substance use disorders, antisocial personality disorder, major depression, opioid dependence, psychiatric diagnoses, 127
Survey research, protocol analysis, recall strategies, estimation strategies, alcohol consumption, 245

Δ^9-Tetrahydrocannabinol, ethanol consumption, cocaine, acute and chronic drug effects, rats, 263
Therapeutic status, chlormethiazole, ethanol withdrawal syndrome, mode of action, hepatic and neuroendocrine effects, 201
Time course, physical dependence, methadone, naloxine, humans, 139
Tramadol, morphine, abuse liability, human subjects, 7
Transcranial electric treatment, alcoholics, anxiety, depression, β-endorphine, amine oxidase, GABA, 1
Treatment, alcoholism, prediction, self-efficacy, controlled drinking, 87
Treatment, anxiety, alcohol, 233
Treatment centres, drug abuse, epidemiology, France, 43

University students, drinking, cross-national, alcohol abuse, 167

Withdrawal, zipeprol, antitussive, dependence, 121
Women, alcohol dependence, family history, personality, crime, 185

Zipeprol, antitussive, dependence, withdrawal, 121

Drug and Alcohol Dependence, 27 (1991) 295
